KNOW MORE ABOUT PREVENTATIVE HEALTH CHECK-UPS

The main goal of the **preventative health check-up** offered by escano, is to know the current health status of the individuals, taking into account ages, sex and previous medical conditions; in order to prevent, identify and treat in a timely manner the health conditions that represent any risk to the patients well-being. At escano we offer a medical evaluation by physicians and specialists that allow us to best serve your needs.

The preventative health check up is recommended **once per year** or according to your physician recommendations.
